What Is Drop Shot Mod?

Drop Shot Mod allows a player to lay down and shoot automatically at the same time.

How Does Drop Shot Mod Work?

When Drop Shot is enabled, and you fire your weapon, your soldier will automatically drop to the ground - making it very difficult for your opponent to shoot you, as he is left shooting in the air where you used to be! Use the left trigger to aim against the opponent while pressing the Drop Shot button.

How Do I Operate Drop Shot Mode?

To turn Drop Shot Mod ON, hold the mod switch on the back of the controller and then tap the Crouch Button (Circle Button). Player 3 led will twinkle and then stay ON to let user knows a special mod has been activated.

To toggle Drop Shot Mod OFF, hold the mod switch on the back of the controller, and tap the Crouch Button (Circle Button). Player 3 LED will twinkle and then turn OFF.

You can always turn all exclusive mods OFF by holding mode switch on the back of the controller and tapping X Button at any time.

What Games Is Drop Shot Mod Compatible With?

Drop Shot Mod is compatible with all Call of Duty games.
